Halftime read: zones 3–7 are the long-two trap. If most of the X's live there, your offense is settling — run the sets that get the ball to zones 1, 2, 8 and 9.

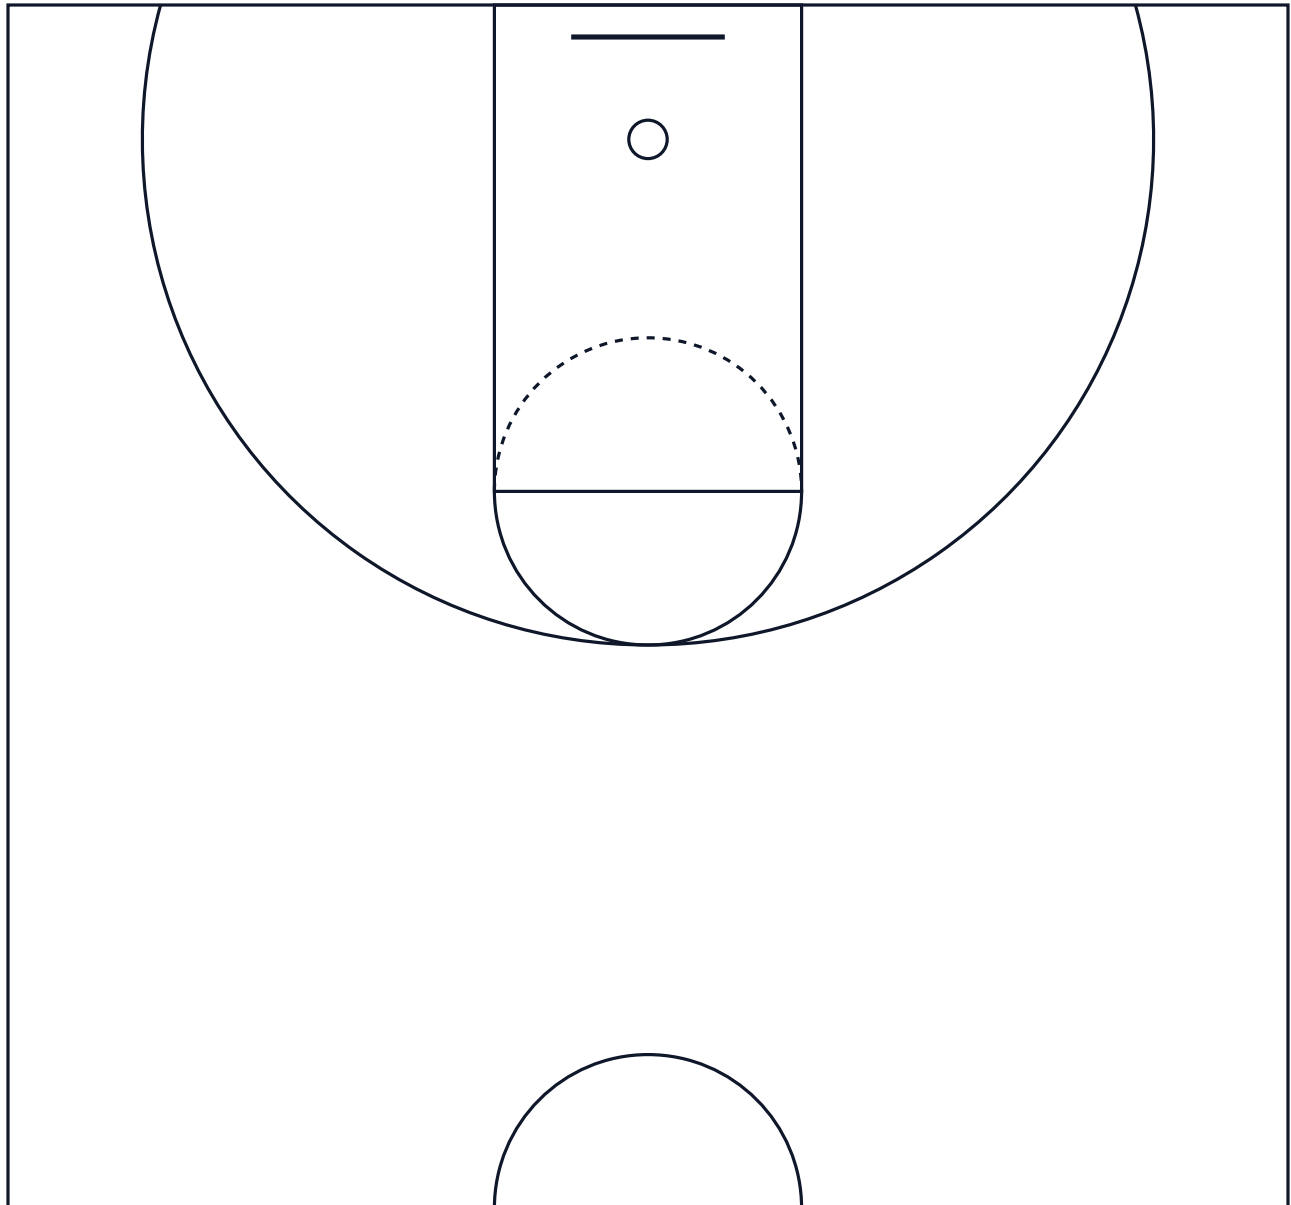

Basketball Shot Chart

Circle = make, X = miss, jersey number next to the mark

My-Team Sports

my-teamsports.com

Game vs _____ Date _____ Quarter: ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ Full game

O = make X = miss write the shooter's jersey number beside every mark

Halftime read: where are the O's clustered, and which X's are the same bad shot repeating?

A cloud of X's from long two-point range is the classic youth-team disease — seeing it on paper convinces kids in a way yelling never does.

Shot Chart by Quarter

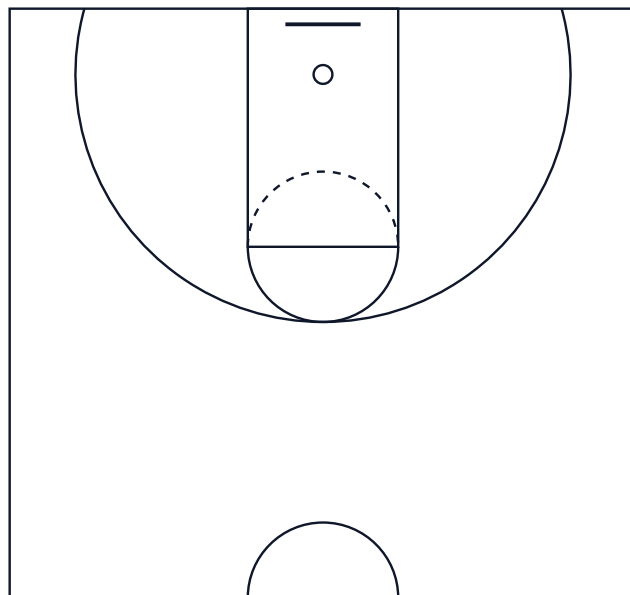

Four courts, one per quarter — lay them side by side after the game

Practice-planning shortcut: whatever the fourth-quarter chart shows is what fatigue does to your shot selection.

Practice spot shooting — makes out of 10 from each of the five spots

my-teamsports.com

Distance: ☐ Free-throw line ☐ Mid-range ☐ Three-point

10 shots from each spot, partner rebounds and counts. Write makes out of 10. Same distance every time you chart — tick the box above so weeks compare. Under 4/10 from a spot in practice = that shot is off the menu in games. Chart it every two weeks; the trend matters more than any one day.
